Property: _____

SNOW REMOVAL AGREEMENT

Hoy Landscaping, Inc. will provide snow removal for the sum of \$_____, for the first 4 inches and \$_____ for each additional inch thereafter. Shoveling will be performed upon accumulation of 1/2 inch or more but such judgement is left entirely to the discretion of Hoy Landscaping, Inc.

Calcium Chloride will be applied to sidewalks at the rate of \$_____ per bag.

_____ Please place beside customer's door a bucket and scoop of calcium chloride for customer's own use. (\$30.) Hoy Landscaping, Inc. will periodically refill this bucket at the rate listed above.

Hoy Landscaping, Inc. generally begins the snow route at 5:00 AM and attempts to have all customers serviced by 11:00 AM. However, such a schedule is subject to weather conditions and timing, and, if snow persists, two or more shovelings may be in order and billed as such. Hoy Landscaping, Inc. has expenses for maintaining a state of readiness and therefore will charge a minimum of two (2) snow removals per month for the months of December, January, February and March.

The term of this contract is seasonal, commencing on the date of the execution of this contract and running through the following month of March. Subsequent years will be accepted orally based on the same terms of this agreement.
